Airport Driver

It is possible to walk out of the airport and hire a taxi however, it is cheaper and easier to order one in advance. Airport Driver is the company that AIS uses for all of its airport transfers. They can provide you minivans (up to 9 people) or normal sized cars. Once ordered, the driver will wait for you in the entrance hall (to the left) holding a sign with your name on it. Approx. €35 for a car and €50 for a minivan. For more information and to make a booking please visit their website: <http://www.airportdriver.at/en>
